CAREER OBJECTIVE

Born and raised in Dnipro, I've channeled my passion and expertise into creating robust, efficient, and scalable web solutions. Through my tenure at FruitFul Code, I've not only solidified my skills in web development but also demonstrated a deep commitment to bringing cutting-edge solutions to the fore. Eager to collaborate with forward-thinking organizations, I aim to push the boundaries of web development, ensuring each project not only meets industry standards but also serves as a platform to elevate and empower diverse communities.

WORK EXPERIENCE

WordPress Front-End Developer

Fruitful Code

📅 June 2023 - October 2024 📍 Kyiv, Ukraine

- Developed prototypes, MVPs, websites, and applications tailored for startups and entrepreneurs.
- Spearheaded the layout design of websites, ensuring optimized user experience and responsive design.
- Integrated websites with Netlify CMS, leveraging React-based components and technologies.
- Acted as a key troubleshooter, identifying and rectifying various website bugs and issues.
- Enhanced and managed web panels, seamlessly integrating functional features to augment user engagement and site functionality.

Front-End Developer

Freelance

📅 January 2023 - June 2023

- Conceptualized and developed diverse landing pages tailored to client specifications and branding.
- Crafted a React-based website for a renowned Australian clothing brand, ensuring smooth user experience and robust functionality.
- Executed a WordPress design integration for a Norwegian retail outlet, enhancing its online presence.
